# Defeating Cancer through Global Education and Training

The American Association for Cancer Research “AACR on Campus” (AACRoC) is coming to ACTREC for an exciting two-day event whose objectives are: to make aware the young research scholars, trainees, and clinicians in India on the activities of the AACR on cancer research and education; and to create opportunities for collaborations and joint funding for research.

The Program includes three scientific sessions focused on Lung Cancer, Gastrointestinal Cancers and Breast Cancers. Eminent faculty from leading cancer research institutes in the United States of America, from ACTREC, TMC the leading Cancer Research Centre and Hospital in India and Faculty

from Institutes across India engaged in Translational Research in Cancer. We will have short talks from young Investigators and Students, selected from abstracts on cancers relevant to India.

The event will also include a Special Session on collaboration, scientific communication, and grant writing aimed at young minds in their formative years. The Special Session will culminate in a panel discussion on fostering integrity in cancer research. Perspectives will include AACR’s global role as a funder and publisher as well as AACRoC speakers from India and the U.S. in their professional roles as principal investigators, editors, reviewers, and authors.
